

at iThemba LABS

eduroam (education roaming) is a wireless service that enables iThemba LABS staff and students to use the wireless networks at other participating universities and research facilities worldwide. It also enables other eduroam users to use the wireless network at iThemba LABS.

Conditions of use:

- Limit the number of devices you connect. You may connect up to 3 devices to the network simultaneously.
- Use the internet responsibly and in moderation: We monitor individual bandwidth usage, so use the internet responsibly for study, research and work-related purposes. Remember that you are bound by the labs policies such as the [Information Technology Acceptable Use Policies](#) .
- Abide by eduroam policies: Read the [eduroam National Policy for South Africa](#)
- Do not share your login username and password: Doing so can compromise your data and the labs' network. It can also result in people connecting multiple devices to eduroam under your name – which can result in you losing access to eduroam.

WiFi eduroam: Download and installation of eduroam CAT tool

The eduroam application can be downloaded from the Google Play Store and Apple iStore.

eduroam Configuration Assistant Tool (CAT) provides customised installers for various platforms. The configuration file can be downloaded at <https://cat.eduroam.org/>

Select your device:

Welcome to eduroam CAT

Connect your device to eduroam®

eduroam® provides access to thousands of Wi-Fi hotspots around the world, free of charge. [Learn more](#)

Download your eduroam® installer
MS Windows 10

Choose another installer to download

TENET
South Africa

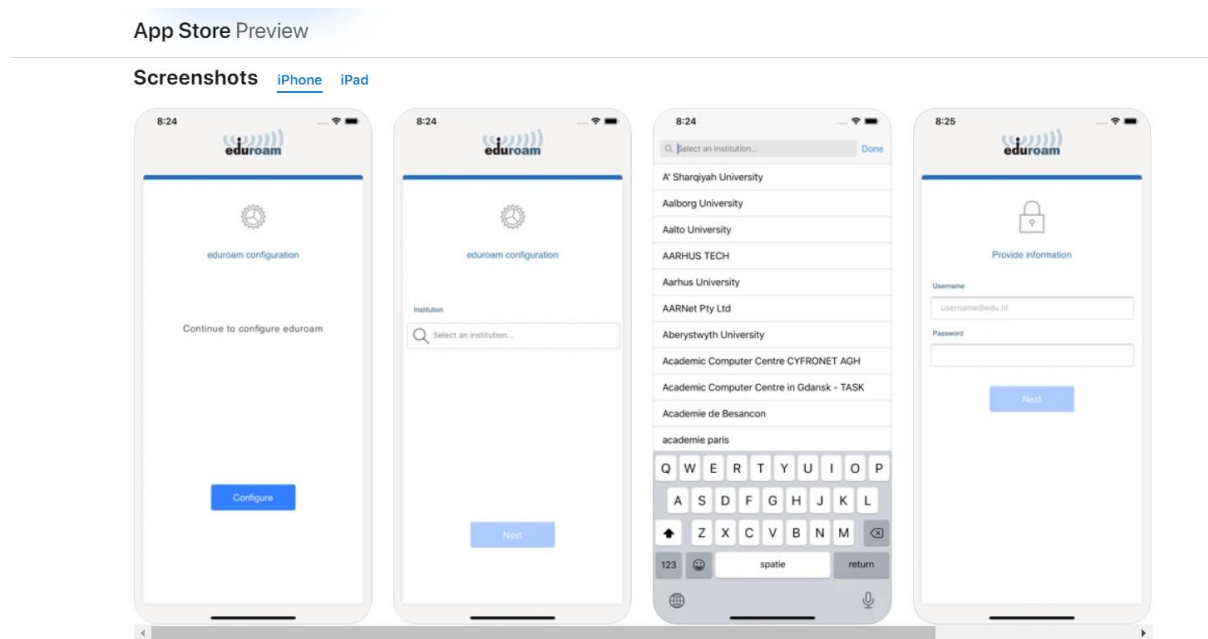

Select **Continue** on the grey notification pop-up that says "*Before you continue with installation on **YOUR System**, please make sure that you have the eduroamCAT application*".

1. Download the eduroam CAT application from your store.
2. Open the application.
3. Enter your iThemba LABS AD as your username: yourusername@tlabs.ac.za
4. Enter your AD password.
5. Select install.
6. Select install on the page with the Configuration File Summary. You are taken to a page confirming whether you want to install the profile.
7. Click on Yes.

- You are returned to the sign in page with "Profile Installed" displayed above the Install button.

Using geteduroam

Download [geteduroam on the App Store \(apple.com\)](https://www.apple.com/education/geteduroam/)

If you experience any technical difficulties, please contact the iThemba LABS Service Desk on 021 843 1332 /1320 or contact [IT Support](#).

Visitors to iThemba

Visiting representatives from other institutions will similarly be able to access the Internet through the iThemba LABS Wireless network using their home institution's credentials with the wireless settings as indicated above.

All information about the use of eduroam will be recorded by iThemba LABS on site or at other universities where you visit and use eduroam. You can get more information on the [eduroam](https://www.eduroam.org/) website.
